# SW ROD RANGE

## TECHNICAL PRECISION

The Fishus SW rod range has been developed with a careful attention to detail and with the most demanding saltwater lure angler requirements in mind.

These rods are built with top quality components, and despite their light weight, the power reserve won't dissappoint you while fighting strong fish even on rough sea and currents.

From leerfish to seabass, boat, kayak or shore, you have a perfect Fishus SW rod that will fit you needs.

## INFINITE SENSITIVITY

### THE RESONANCE CHAMBER

Fishus spinning rods are built with a carbon plate on the handle, you will realise you are feeling slight bites on the palm of your hand and you are failing less hooksets.

A direct link from your palm to the blank.

### THE LURE-HOLDER CROWN

The holder crown is perfect to place your lure when you are fishing from the bank and need to walk with your lure tied.

Perfect for holding the lure on the rod without getting your line tangled while casting.

# FW ROD RANGE

The Fishus FW rods are designed by highly experienced predator and bass fishing enthusiasts, in order to create a complete range and cover most situations and lures for black bass, perch, pike, zander and trout fishing. 7 baitcasting and 3 spinning rods with an impressive power reserve, lightweight and thoughtfully tested in dozens of different scenarios.

Spinning rods (FW4 to 6) feature a carbon plate in the handle, which becomes a resonance chamber.

| Rod                                                                                                                                                                                                                                                                                   | Type | Length                      | Action      | Casting Weight           | Weight | PE Line   | Sections | Reel Seat | Guides                   | Technique |

# BACKO ROD RANGE

A range for the most experienced anglers who need high-end rods for the most demanding fishing situations. Backo rods are developed to face battles against big pelagics such as tuna, amberjack, leerfish, tarpon, roosterfish, jacks, etc... as well as taming snappers or groupers with the guarantee of an extremely powerful and balanced blank that allows you to control the fight with the minimum fatigue on the angler and the maximum pressure on the fish.

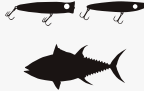

The secret behind the comprehensive manufacturing of this range lies in the fiber distribution, its distinct action, the guide configuration, and blanks engineered to maximize casting distance and accuracy.

Built with premium Zenith Carbon, one of the finest carbon materials available, delivering exceptional lightness, balance and performance.

Once a fish is hooked, the entire rod loads seamlessly, significantly reducing angler fatigue and minimizing line stress—allowing you to fully enjoy long days on the water.

# STARLING ROD RANGE

**Starling** is the spinning rod range for the all-rounder predator angler.

With an impressive design according to their quality, Starling rods are intended to cover most lure fishing situations in both fresh and saltwater. Every Starling rod is equipped with Fuji KW guides and gunsmoke grey finished components.

Also available in 4 and 5 section travel versions, perfect for overseas fishing trips!

## SLOW SILICON

Progressive action rod developed for vertical fishing with metal jigs and soft plastic lures. Designed in two sections for easy transport. Fuji reel seat with TCS casting trigger  
Ultra-light ACB carbon construction for better sensitivity in the middle/top part of the blank for a direct contact with line, lure and fish.

| Ref.   | Length                         | Action  | Casting Weight         | Weight | PE Line | Sections | Reel Seat | Guides  | Un. | RRP (€) |  |

A black and white photograph of a man with a beard, looking down at his hands which are holding two fishing lures. The background is dark with a large, stylized, light-colored geometric pattern. The text is overlaid on the image.

**20 YEARS OF PARTNERSHIP**

Where Artisan Soul Meets  
Precision Engineering.

by **LURENZO**

Meticulous **handcrafted**

High-Definition  
**ABS STRUCTURE**

Evolution to  
the **MAXIMUM** level

A large, detailed fishing lure with a realistic fish-like appearance, including scales and a large eye.

We create the **HERO**  
that will give you **the catch of your life.**

# ESPETIT

**5 SIZES**

70 - 95 - 110 - 125 - 140 mm

**Walking the Dog - Diving- Sliding  
Splashing - Bubble Trail**

A favorite among anglers worldwide. Its perfectly balanced design maintains a horizontal position at all times, ensuring maximum casting distance and effortless action with just a subtle rod tip movement. Whether you're moving it at fast or slow pace Espetit delivers perfect stability and fish-triggering movement.

The dual bubble-generating cavities create an irresistible surface disturbance, mimicking wounded prey and provoking aggressive strikes from both freshwater and saltwater predators. Choose between rattling or stealthy silent versions to match any fishing condition.

With virtually no limit to the species it can catch, Espetit belongs in every angler's tackle box.

# ESPETIT GOLIATH

## XXL SIZE

210 mm

**Walking the Dog - Diving- Sliding  
Splashing - Bubble Trail**

A special BIGBAIT edition of the classic Espetit, completely redesigned for heavy-duty gear. Built around a reinforced core to withstand the hardest-hitting predators in fresh and saltwater, it comes rigged with 3x 1/0 4X trebles.

The innovative weight-transfer system does more than maximize casting distance—it creates self-generated momentum on the first twitch, making walking and sliding effortless even at 100g.

With baitcasting gear, simply reel and let the lure's fluid, aggressive action do the work—moving as smoothly as a 30g lure but packing unmatched power. Let the Goliath's unstoppable action tempt monster strikes!

# THALASTICK

## 2 SIZES

120 - 150 mm

### Sweeps - Steady retrieve gliding

Designed specifically for tuna, this heavy stickbait combines exceptional casting distance with instinct-triggering action. It immediately assumes a horizontal sinking posture, creating a unique combination of subtle rolling and tail movement that provokes strikes even during the drop.

#### Active technique:

Sharp sweeps followed by pauses (when most strikes occur)

#### Passive approach:

Slow, linear retrieves that showcase its side-flashing glide

The single tail hook ensures solid hookups while facilitating easy release.

# HALF BEAK

Long Cast Lure

**Taildown floating sweep action**

SCAN ME!

LURE ACTION

Floating and silent taildown stickbait, with a size of 160mm and a weight of 62 grams, designed for catching big pelagic fish such as tuna and all kinds of carangids (amberjack, mahi, leerfish, wahoo, queenfish etc...) as well as reef predators such as cubera snapper or napoleon wrasse...

Featuring an extraordinary grip in the water, which allows us to animate it with the Walking the Dog technique by breaking the surface layer.

If we also perform the action with energetic sweeps (long or short) alternating with stops, the Half Beak performs in sub-surface with an forward movement that shows constant changes of direction to both sides.

At the stop, it raises its head as if it were trying to jump out of the water, at which point no predator that is chasing it can reject attacking it.

# ESPETRON

**Walking the Dog - Sliding**

Long Cast Lure

Espetron, the legendary topwater barracuda-shaped stickbait made by Isaac Lurenzo in 2009.

Perfect to cast and move with medium and heavy spin fishing gear, from shore, boat or float-tube, on shallow or pelagic waters.

Espetron triggers crazy strikes on any scenario and will be merciless attacked by a broad scope of predators: Leerfish, bluefish, seabass, amberjack, dentex, tuna, queenfish, mahi, rooster...

Even on rough wind and water conditions, Espetron will sure deliver. With a flawless reputation and countless trophies on his back.

# DON BELONE MINI

**Walking the Dog -Sliding  
Walking + Slashing Action**

**2 SIZES**

**75 - 100 mm**

**AERODYNAMIC**  
- DESIGN -

Based on the concept of the original Don Belone, the "Mini" size is focused on seabass and other medium size predators that feed on garfish and small fry.

The 100mm size is more suitable for longer casts, casting longer than any other surface lures of this size. It will splash water like a pencilbait, and being a sinking lure this is perfect for walking the dog and subwalking in both shallow and deeper areas where fish feed close to the surface.

The 75mm size emulates a small garfish or sandeel that moves in the first layer of water trying to go unnoticed without noise or splashing, although you can let it sink and apply jerks for a slightly erratic action.

# DON BELONE 140

The medium size Don Belone is the wildcard for fishing predators feeding on garfish by the shore. Floating or sinking, this impressive pencil popper will work when any other lures fail. Versatility is its second name, you can make it dive in so many ways and along any water layer. Make it splash on the surface, jerk it, walk the dog...

Perfect for seabass, barracuda, leerfish, amberjack... there's virtually no species that haven't been caught on Don Belone!

# DON BELONE 230

SCAN ME!

LURE ACTION

Originally intended to be as a garfish imitation for leerfish and bluefish, Don Belone has become a reference bait for almost any saltwater predator species.

A truly innovative lure ahead of its time, something different to anything you may have cast. Able to fish at any water layer, this kind of hybrid lure between popper and pencilbait marked a milestone on Isaac Lorenzo's career.

Once you manage to master the "way of the Belone" you'll be able to catch anything, anywhere: tuna, swordfish, seabass, mahi, jack, queenfish, amberjack... ready to cover any scenario.

# DON BELONE 240

When even a 230mm Don Belone is not enough, you have add some extra spice.  
Designed to be used withr heavy tackle and for those rough sea and strong wind days.  
You may think adding only 10mm is not much, but the Don Belone 240mm is noisier and more suitable for WTD when you are after the really big ones.

# ESPETIT SHALLOW

Rolling and wobbling action on shallow areas

Long Cast Lure

## 2 SIZES

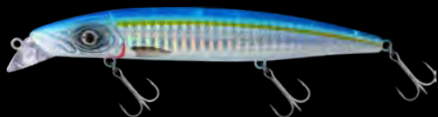

90 - 120 mm

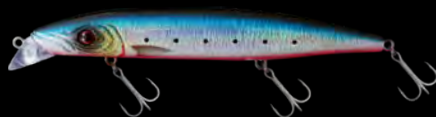

A hard lure with bronze ballast weight system to scout shallow zones, diving down to 0.2-0.6 meters. Perfect for fishing on beaches with sunken obstacles, bays and shallow banks, where the surface is covered by weed and you can't fish with topwater lures but a sinking one would get continuously snagged on the bottom.

On low-light conditions the Shallow Runner will move forward leaving a highly noticeable wave thanks to its inner rattling and an emblazing flash thanks to its rolling action. Also, it will keep a perfect stability due to its ballast weight transfer.

Ippai is a heavy minnow intended for big predators with heavy tackle. A lure with a slow fall akin to a jig minnow. Keep your line tight while it's falling and prepare for a ruthless strike after its rolling and continuous flashing!

Capable to execute a ravishing and erratic action when jerking it thanks to its lip design and body shape. Reinforced inner wire and a 150lb resistant swivel that allows the center hook to turn freely lessening the stress on the rod.

Also really effective for trolling up to 6 knots and for higher spots where a regular jerkbait would be difficult to move.

360 degree rotating swivel to relieve lure and rod stress

Reinforced inner core

# WOBLY

**3 SIZES**  
40 - 62 - 80 mm

Long Cast Lure

**Effortless wobbling and rolling**  
**Ultra-long casting - Super easy to use**

STEEL INNER CORE (62 & 80MM)

Wobly features an extraordinary casting capacity, and comes armed with high quality 3X treble hooks, strong rings, and a laser-cut reinforced internal structure, which makes it an indestructible lure.

It starts working as soon as it gets into the water, when it descends the first thing that draws your attention is that it falls slowly with an strong rolling movement.

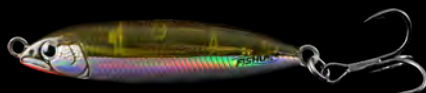

Meanwhile it will keep flashing heavily with a subtle frequency through its small inner rattling.

Wobly displays its full potential on a slow retrieve, lower ratio reels on linear retrieve. You can add some stops, making it fall parallel to the bottom line like a badly wounded prey.

Aggressive jerking and wobbling action

SCAN ME!

LURE ACTION

## 2 SIZES

100 - 130 mm

Long Cast Lure

An unique jerkbait to target pike, seabass, bass, and zander with dual actions: sharp rolling wobble on steady retrieve and aggressive side-to-side movement when jerked.

The 130mm version offers adjustable sink/suspending/floating behavior through interchangeable rings and trebles.

Precision tungsten inner weight maintains a perfect 45° hunting posture during pauses, enhanced with a loud rattling for murky water detection and outfitted with ultra-sharp Ryugi® Pierce trebles featuring TC-coating for maximum hook penetration.

Perfect to fish on sunken trees, structures and deep open waters, it will undoubtedly take the big ones out of their hideout.

# WHAT IS **MIMETIC**?

A truly lifelike pattern that reveals itself the moment the lure hits the water.

Mimicking real fish slime and scales. The MIMETIC colors are highly effective in heavily pressured waters.

Especially in crystal-clear conditions where fish grow wary of flashy or holographic lures.

**OUT OF THE WATER**

**UNDER THE WATER**

# ESPETIT JERK SP

**Jerking - Twitching - Steady Retrieve**

SCAN ME!

LURE ACTION

**3 SIZES**

55 - 80 - 120 mm

An all-terrain jerk/twitchbait for fishing both shallow waters on currents or still waters... Trout, pike, zander, perch and seabass will merciless hammer it.

The 85 and 120 mm sizes will suspend on freshwater at around 1 meter deep when the water temperature is between 8 and 18°C.

Depending on the mainline, leader and water temperature it will work at different depths.

The 55mm behaves as a slow floating lure, diving between 0.20 and 1 meter deep.

# ESPETIT JERK SK

*Sinking jerkbait with sharp action*

SCAN ME!

LURE ACTION

This little jerkbait was designed specifically for trout fishing, whether you're fishing in pools, small creeks or moderate streams but also turned out to be an absolute killer on other species hunting small fry on weirs, lakes and reservoirs like perch, asp and chub.

Also perfect choice for saltwater lightgame, whether you're after seabass, seabream or porgies.

Its flattened shape, its bill design and its rattling frequency make this lure perfect for those conditions, also if we stop it keeping line tension it will nicely fall while wobbling.

# ESPARRALL SPIN TAIL

Light body spinning tail blade bait

SCAN ME!

LURE ACTION

**3 SIZES**

45 - 55 - 65 mm

Made with lead-free stainless steel, the lighter version of the Esparrall Metal Vib is perfect for a more slow-paced vertical fishing or power fishing steady retrieve.

Thanks to its flatter profile and spinning tail this blade-bait emits a less aggressive wave, for those days when fish are not reacting to strong vibrations or erratic movements.

The tail can be replaced by a willow-type blade, or even remove the rolling swivel for a side to side tail action. A really effective lure for perch, zander, pike, trout and seabream.

# CERBERUS LITE

SCAN ME!

LURE ACTION

Cerberus Lite Set includes:

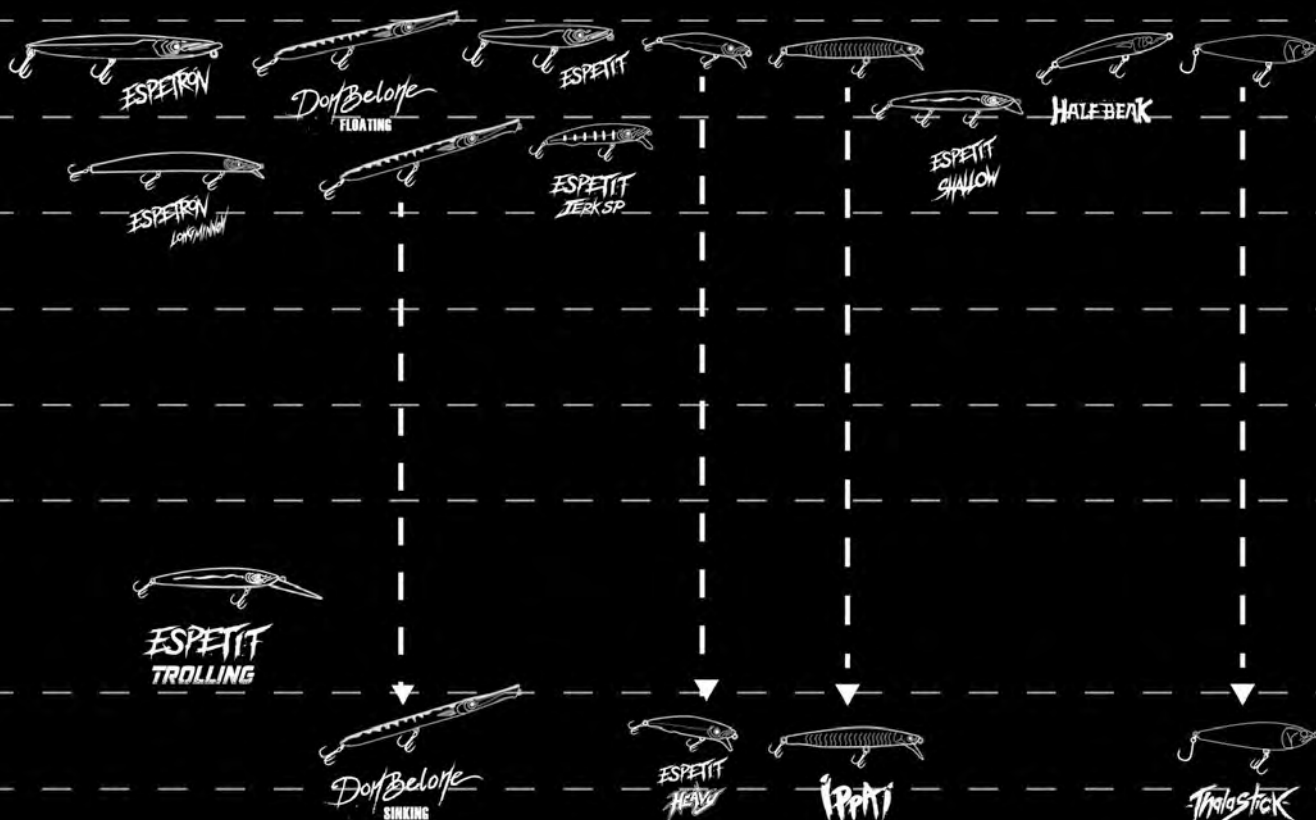

- 1 Cerberus Lite swimbait (w/hooks)
- 2 detachable bills (wake/glide)
- 8 Joint blockers
- 1 tail + 1 dorsal fin replacement

## Wake - Glide - Swing - Compact size Swimbait

The smaller version of the Cerberus hard swimbait, designed for lighter tackle setups, this compact lure doesn't compromise on action or customization.

Delivering the same irresistible swim and versatility as its bigger brother, the Cerberus Lite is perfect for targeting pike, bass, and zander in conditions demanding a more subtle approach. Cast it effortlessly with a H or MH action rod.

When bigger baits just won't cut it, this is your go-to weapon.

# SHANNY FBL TAIL

**PATENT  
PENDING**

**Ultra vibe new FBL TAIL  
All-round Bottom Search**

The Shanny is based on the natural shape of a goby, designed for fishing in both shallow, calm waters and areas with current, especially around mixed algae-and-rock environments where blennies inhabit. It is highly effective with a jerk-and-pause retrieve, allowing the lure to work close to the bottom, as well as with a steady linear retrieve.

Our revolutionary FBL TAIL generates maximum vibration with minimal movement, making the lure much easier for fish to locate in any conditions.

# THE LOBSTER

**HYPER  
REALISTIC**

SCAN ME!

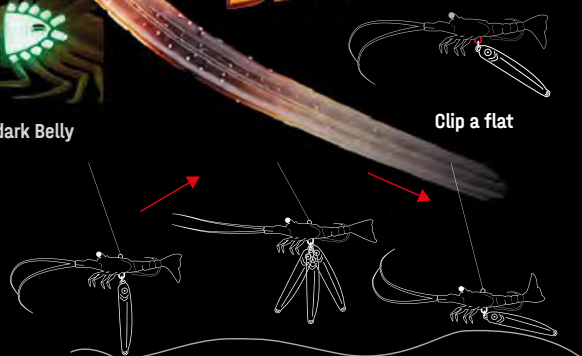

LURE ACTION

**Bottom jigging weighted soft lure**  
**Shrimp essence and attractant**

THE LOBSTER is a revolutionary soft lure designed to perfectly mimic a real lobster at its most vulnerable stage, when it moults. Its dual density soft plastic body and hyper-realistic movement make it an easy target for grouper, large sparids and benthic predators.

Thanks to the belly clip we can weight the lure with the help of the sinkers according to the depth we want to fish, we can even hook a flat profile jig to reach the bottom faster.

# WOBLY SHADMIX

**Zinc lead-free jigheads**

## 2 TAIL SIZES

60 - 70 mm

Discover the Wobly Soft Lure system, now offered in convenient bulk packs. Each lure features a premium zinc jighead perfectly paired with a vibrant tail, ready to fish right out of the box.

Choose a 60mm or 70mm tail in the colour you have confidence in, matched with the ideal jighead weight for the situation. Select a lighter or heavier zinc head to perfectly match your spot and target species.

The magic is in the paddle tail's action. Once moving, it has a natural wobbling and rolling swim that appeals to trout, seabass, perch, zander, or any other predator, even on a slow steady retrieve.

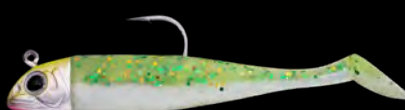

Crafted from our special rubber blend, these tails offer a great mix of a soft, lifelike feel and solid durability.

# ESPETIT SANDEEL

**Pulsating Tail Action - Darting**

**4 SIZES**

100 - 120 - 140 - 150 mm

SCAN ME!

LURE ACTION

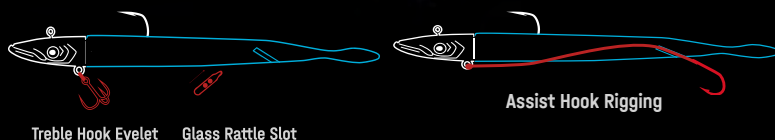

The Espetit Sandeel is a soft plastic lure designed to accurately mimic the key actions of a sandeel, a primary forage fish for seabass and other saltwater predators. Its jig head shape and slender body promote a natural darting movement on a lift-fall retrieve and straight retrieve action.

A key feature is the pulsating tail, which produces a consistent, low-frequency vibrations to attract fish from a distance and trigger reaction strikes.

Crafted with a durable yet soft plastic hollow body, with a slot to thread your line for a streamlined assist hook setup or to insert an optional glass rattle for added attraction.

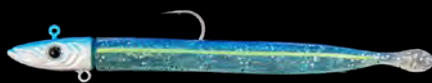

The jig head is finished with a hook hanger on the belly, offering versatile rigging options. It can be easily fitted with an assist hook, a treble hook, or dressed with a feather or spinner to enhance the profile.

# BASS TRAP

The Bass Trap is a finesse fishing worm made with our double-component formula, but without salt in the head that has proved to be an absolute banger for bass.

Thanks to its asymmetrical profile and double density, it fits: many different rigs: Wacky, Ned rig, Neko, Split Shot, Shakey, Texas, DropShot...

But, the cool thing about it is that depending on the side you rig it you'll get a slightly different movement!

A must have in every finesse fishing tackle bag!!!

# ESPETIT SOFT JERK

HYDRODYNAMIC  
- DESIGN -

## 4 SIZES

80 - 100 - 120 - 150 mm

An unique soft jerkbait for any predator species. The salt density keeps the lure perfectly balanced, and along the V-tail design and lower appendix translate into a flawless fall, with a subtle tail movement and soft body wiggling. As soon as you jerk the lure, it changes direction while making a highly attractive tail vibration. Suitable for wide-gap offset hooks, fishing weightless, on dropshot or free rigs, but also incredibly effective rigging it on a darting jighead.

# ESPETIT DEAD JERK

Floating version of the Espetit Soft Jerk, made of TPE material, this jerkbait imitates a dying fish on the surface. You can use it like a topwater lure: walking the dog, frogging it or with a Kickback rig to fish closer to the bottom.

Perfect for skipping on docks, surface cover and other spots where you need to keep you lure "dead" for long time. These super durable lures will catch those tricky lunkers that would reject any other lure passing by!

**GPB GREEN PUMPKIN BLACK FLAKE**

**SW SOLID WHITE**

A large photograph showing two anglers on a boat. On the left, a man in a black t-shirt and cap holds a large, green and yellow striped fish. On the right, a woman in a black t-shirt with "FISH by Lure" and sunglasses holds a large, dark-colored fish. The background shows a lake and mountains.

# ESPETIT SOFT PELAGIC

## ENGINEERED FOR THE PERFECT FALL

### Pelagic Fishing - Sharp Shooting

Suspended predators are notoriously calculating—take control over them! The Espetit Pelagic is a soft lure designed specifically for pelagic and vertical fishing, as well as sharp shooting techniques. Its oversized V-Tail, equipped with a dedicated lower rudder, is shaped to create a perfectly balanced, horizontal drop. This design keeps the bait completely stable, giving you absolute control as it descends through the water column.

To trigger pressured fish that have grown wary of regular lures, the Espetit Pelagic features highly responsive, ultra-soft pelvic fins that quiver and pulse with the slightest rod twitch. This micro-movement creates a precise and vulnerable silhouette, providing exactly the right visual cues to draw aggressive strikes from zander, catfish, pike, and demanding saltwater species.

Versatility is built in. The integrated offset hook slot allows for seamless weedless rigging, making it a highly effective tool for pulling fish out of dense cover and complex structures. Whether you are sharp shooting deep marks or working a shallow rig over weed beds, the Espetit Pelagic Shad turns high-pressure conditions into rewarding results.

S SARDINE

Crafted with an extra-thick alloy for enhanced weight, the Espejig delivers a controlled fall that will sink deep into the water column, attracting fish from all layers. Its unique body shape ensures effortless fast jigging action, making it easy to manipulate in the water to mimic the movement of a badly wounded prey. The razor-sharp assist hooks will make sure you don't miss any hookset. And to further enhance its appeal, the Espejig features a stainless steel tail that emits extra flash and vibration.
