In the case of return of goods, including repairs, need to have previous Artfishing, SL authorization.

Any returned goods by other way than that established procedure will be rejected. In unjustified returned goods, administrative expenses deducted and handled with a minimum of 10% of the credit note, plus associated freight costs. Returns of items not listed in this catalog will not be accepted. In any case explanatory note must be attached. The cost of repairs and the freight at the customer side.

Any taxes, whether direct or associate, are not included in the price reflected in this catalog. Prices in this catalog annul previous ones.

Artfishing, SL reserves the right to modify products or prices presented in this catalog without prior notice, if necessary. All diameters and resistances indicated are approximate values. Carbon is electrically conductive material, do not use products such material in overhead electric lines or during stormy days. All rights reserved. Prohibited the total or partial reproduction of texts and images without the express permission of Artfishing, SL.

Retention of title: The goods supplied shall remain the property of the seller until the buyer has complete the payment of total amount and there is no balance in favor of the seller.

Does not constitute payment the acceptance of documents or delivery by the purchaser of documents that create an obligation of payment. seizure by third parties, the buyer agrees to inform the seizure taker of the clause "Retention of Title" on goods supplied by the seller, and the seller, the seizure that has been subjected.

Jurisdiction: By express conviction, disputes arising shall be the responsibility of the Courts of Barcelona (Spain), renouncing all others.

All rights reserved. Images and texts in this catalogue are the intellectual property of Artfishing SL. The total or partial reproduction of its content without the previous written authorization of the owner company is not allowed. The material is registered and protected by copyright. Any act of exploitation, diffusion or public communication; as well as any lucrative or commercial use, direct or indirect, of any of the contents that integrate this catalogue, is expressly prohibited. Artfishing SL will be fully entitled to bring all legal and civil actions against those who violate this prohibition.

**CONDICIONES PARTICULARES**

Artfishing, S. L. no se responsabiliza de la pérdida o deterioro de la mercancía si no se especifica en el albarán de entrega. No serán aceptadas reclamaciones después de dos días de la recepción de la misma. Las reclamaciones a la empresa de transporte, ya sea por rotura/golpe o por falta de algún bulto, que no se hagan constar en el momento de la entrega en el comprobante, no podrán ser reclamadas a la empresa aseguradora, quedando invalidada dicha sustitución por Artfishing, S. L.

Portes: Incoterm EXW, salvo condiciones pactadas.

En caso de demora o impago, se devengará el tipo legal del dinero, incrementándolo en dos puntos porcentuales, más los gastos de devolución y el coste financiero asociado (mínimo 12 €).

En el caso de devolución de mercancía, incluyendo reparaciones, sólo se aceptará a portes pagados cuando Artfishing, S. L. autorice dicha devolución, siempre a través de nuestra agencia de transporte, y mediante un número indicado expresamente por la empresa.

Cualquier mercancía devuelta por procedimiento distinto al establecido será rechazada. En devoluciones de mercancía no justificadas se deducirán los gastos de administración y manipulación, con un mínimo del 10 % del abono correspondiente, más los portes asociados. No se aceptarán devoluciones de artículos que no figuren en el presente catálogo. En todo caso deberá adjuntarse nota explicativa. El coste de las reparaciones y los portes correrán a cargo del cliente.

Cualquier tipo de impuesto, ya sea directo o asociado, no está incluido en los precios reflejados en este catálogo. Los precios de este catálogo anulan los anteriores.

Artfishing, S. L. se reserva el derecho de modificaciones en los productos o precios presentados en este catálogo, sin previo aviso, en caso necesario. Todos los diámetros y resistencias indicados en el mismo son valores aproximados. El carbono es material conductor de electricidad, no utilizar productos con dicho material en proximidades de tendidos eléctricos ni en días de tormenta. Todos los derechos reservados. Prohibida la reproducción total o parcial de textos e imágenes sin la autorización expresa de Artfishing, S. L.

Reserva de dominio: Las mercancías suministradas serán propiedad del vendedor, hasta que el comprador haya completado el pago del importe y no exista saldo a favor del vendedor.

No constituye pago la aceptación y descuento de letras o la entrega por parte del comprador de documentos que creen una obligación de pago, tales como cheques, pagares, etc., hasta que hayan sido debitados en la cuenta del comprador. En caso de embargo por parte de terceros, el comprador se compromete a informar al embargante de la cláusula de "Reserva de Dominio" sobre las mercancías suministradas por el vendedor, y al vendedor, del embargo que ha sido objeto.

Jurisdicción: Por convicción expresa, los litigios que pudieran surgir serán competencia de los Tribunales de Barcelona, con renuncia expresa de todos los demás.

Todos los derechos reservados. Todas las imágenes y textos que salen en el presente catalogo son propiedad intelectual de Artfishing SL. No se permite la reproducción total ni parcial de las imágenes o textos sin la autorización previa por escrito de la empresa propietaria. El material esta registrado y protegido por los derechos de autor y/o de reproducción. Cualquier acto de explotación, difusión y/o comunicación pública, así como cualquier uso lucrativo, directo o indirecto y/o comercial, de cualquiera de los contenidos que integran este catalogo queda expresamente prohibido. Artfishing SL, quedara plenamente legitimada para interponer cuantas acciones legales y civiles asistan contra aquellos que infrinjan la presente prohibición.

**CONDITIONS PARTICULIÈRES**

Artfishing, SL n'est pas responsable de la perte ou des dommages aux marchandises si non spécifié dans le bordereau de livraison. Aucune réclamation ne sera acceptée après deux jours de sa réception. Des revendications à l'entreprise de transport, soit pour dommage ou l'absence d'un colis, qui n'est pas indiqué sur le bon de livraison, ne peut être réclamé à la compagnie d'assurance, étant invalidé tel remplacement par Artfishing, SL.

Ports: Incoterm EXW, sauf conditions convenues.

En cas de retard ou impayé, nous rajoutons le taux légal qui augmente de deux points de pourcentage, plus le coût de renvoi et le coût financier associé (minimum 12 €).

Dans le cas de retour de marchandises, comprises les réparations, seulement sera accepté le franco de port quand Artfishing, SL autorise cette opération, moyennant l'agence de transport et nombre référence expressément indiqué par l'entreprise.

Toute marchandise retournée autre que selon la procédure établie sera rejetée. Dans les retours de marchandises injustifiées, les coûts d'administration et manipulation seront appliqués, avec un minimum de 10% de l' avoir correspondant, plus les coûts de transport associés. Nous n'accepterons pas les retours d'articles ne figurant pas dans ce catalogue actuel. En tout cas, il devra être jointe une note explicative. Le coût des réparations et les frais de transport seront supportés par le client.

Toutes les taxes, qu'elles soient directes ou associées, ne seront pas incluses dans le prix du catalogue. Les prix dans ce catalogue remplacent les antérieurs.

Artfishing, SL se réserve le droit de modifier les produits ou les prix présentés dans ce catalogue sans préavis, si nécessaire. Tous les diamètres et résistances indiquées ici sont approximatives. Le carbone est un matériau conducteur d'électricité, ne pas utiliser de produits de ce matériau à proximité de lignes électriques ou les jours d'orage. Tous droits réservés. La reproduction totale ou partielle des textes et des images sans l'autorisation expresse de Artfishing, SL est rigoureusement interdite.

Reserve de propriété: Les marchandises livrées restent la propriété du vendeur jusqu'à ce que l'acheteur a terminé le paiement du montant au 100% et il n'y a aucune balance en faveur du vendeur.

Ne constitue pas paiement une acceptation et escompte des effets pour part du acheteur des documents qui créent une obligation de paiement tels que les chèques, lettre credit, etc., jusqu'à ce qu'ils soient débités sur le compte de l'acheteur. En cas de saisie par des tiers, l'acheteur accepte d'informer le tiers saisi de la clause "Réserve de propriété" sur les biens fournis par le vendeur, et au vendeur, de la saisie qui a été soumis.

Compétence: Par conviction express, les litiges découlant seront à la charge des Tribunaux de Barcelone (Espagne), renonçant à tous les autres.

Tous droits réservés. outes les images et les textes qui apparaissent dans ce catalogue sont la propriété intellectuelle de Artfishing SL. Il n'est pas permis la reproduction totale ou partielle des images ou des textes sans l'autorisation écrite préalable du propriétaire de l'entreprise. Le matériel est enregistré et protégé par le droit d'auteur et/ou la reproduction. Tout acte d'exploitation, de diffusion et/ou de communication publique, ainsi que toute utilisation lucrative, directe ou indirecte et/ou commerciale, de tout contenu composant ce catalogue est expressément interdite. Artfishing SL, sera en droit de prendre toutes les mesures légales et civiles contre ceux qui violent cette interdiction.

A silhouette of a fisherman on a boat at sunset, reeling in a large fish. The word "RODS" is overlaid in large white letters. The background shows a sunset over a body of water with a dark landmass in the distance. The fisherman is in the foreground, holding a fishing rod. The word "RODS" is centered in the middle of the image.

# FISHUS

When you are serious about lure fishing, everything must perform to suit your needs.

At FISHUS Lures we know the importance of getting a rod that fits the quality of our lures, and our development team has carefully chosen the right components and features of every Fishus rod, field tested for 100% reliance.

Nothing is left to chance, no detail is merely decorative. When you take a Fishus rod in your hands and cast your lure in your favourite spot you realize that it is not just another piece of carbon.

May you fish tuna on poppers or you are a refined seabass angler, may you fish black bass competitions or you are a "weekend warrior", we have the right rod for you!

Go ahead, cast and rip lips!

## THE RESONANCE CHAMBER

You might not be aware at first but you take some time fishing with some of our spinning rods you will notice about the carbon plate on the handle.

Then you realise you are feeling slight bites on the palm of your hand and you are failing less hooksets.

This is the Resonance Chamber magic, a direct link from your palm to the blank that is specially useful on eging and finesse fishing.

\*Available on SW / FW spinning rods and SW Eging

## THE LURE-HOLDER CROWN

Instead of those cumbersome and quirky lure holders from some rods, we added a "holder crown" to some of our rods.

This is perfect to place your lure when you are fishing from the bank and need to walk with you lure tied,

No more lure holders that get your line tangled while casting, no more holding the lure on the rod guides or pinning the hook the EVA/cork. This is a neat handy detail you will love!

## ACB CARBON BLANKS

Our rod blanks are made with reinforced ACB Carbon , which confers a better sensitivity even on the slightest fish bite.

Lightweight and strong, this carbon translates into stunning rod blanks .

Something you will immediately notice once you get a Fishus rod in your hands,

## A GRIP FOR EVERY SITUATION

Fishus rods handles are carefully studied for each rod purpose and fishing technique:

Split handles: lightweight are intended for finesse and tactical fishing techniques.

Full handles: EVA wrapped for better grip during heavy duty fishing or longer combats.

Full Carbon: Designed for an unmatched sensitivity on light game and rock fishing.

## FUJI COMPONENTS

Every Fishus rod is made with top components. All the reel seats and guides from our ranges are made by Fuji and assembled and checked under strict quality control procedures.

# SW ROD RANGE

Fuji FULL X WRAP ACB CARBON

The Fishus SW rod range has been developed with a careful attention to detail and with the most demanding saltwater lure angler requirements in mind.

These rods are built with top quality components, and despite their light weight, the power reserve won't dissappoint you while fighting strong fish even on rough sea and currents.

From leerfish to seabass, boat, kayak or shore, you have a perfect Fishus SW rod that will fit you needs.

# FW ROD RANGE

The Fishus FW rods are designed by highly experienced predator and bass fishing enthusiasts, in order to create a complete range and cover most situations and lures for black bass, perch, pike, zander and trout fishing.

7 baitcasting and 3 spinning rods with an impressive power reserve, lightweight and thoughtfully tested in dozens of different scenarios.

Spinning rods (FW4 to 6) feature a carbon plate in the handle, which becomes a resonance chamber.

# BACKO ROD RANGE

A range for the most experienced anglers who need high-end rods for the most demanding fishing situations, when other rods won't make the grade.

Backo rods are developed to face battles against big pelagics such as tuna, amberjack, leerfish, tarpon, roosterfish, jacks, etc... as well as taming snappers or groupers with the guarantee of an extremely powerful and balanced blank that allows you to control the fight with the minimum fatigue on the angler and the maximum pressure on the fish.

The action and whole construction of these rods hint that they are made for ultra-high performance and success in extreme fights!

# FISHUS

by LURENZO

Back in 2008 a hardcore lure angler and craftsman started carving some handmade lures in Barcelona, Spain.

His goal: designing the ultimate lures for his passion, topwater fishing. It was the birth of Espetron and Don Belone, two iconic lures that were improved step by step until nearly perfection.

Their creator, Isaac Lurenzo, soon gained a well deserved recognition not just around the Mediterranean fishing scene anglers, people all over the world praised his lures thanks to their impressive catching ability.

After 17 years Isaac's mastermind has engineered dozens of new lures, all of them with a careful attention to detail, originality and aiming to be a barrier breaking product.

**FIVE SIZES: 70, 95, 110, 125 & 140mm**

**Walking the Dog - Diving- Sliding  
Splashing - Bubble Trail**

A favorite among anglers worldwide. Its perfectly balanced design maintains a horizontal position at all times, ensuring maximum casting distance and effortless action with just a subtle rod tip movement. Whether you're moving it at fast or slow pace Espetit delivers perfect stability and fish-triggering movement.

The dual bubble-generating cavities create an irresistible surface disturbance, mimicking wounded prey and provoking aggressive strikes from both freshwater and saltwater predators. Choose between rattling or stealthy silent versions to match any fishing condition.

With virtually no limit to the species it can catch, Espetit belongs in every angler's tackle box.

# ESPETIT GOLIATH

SCAN & WATCH  
LURE ACTION

**XXL SIZE: 210mm**

**Walking the Dog - Diving- Sliding  
Splashing - Bubble Trail**

A special BIGBAIT edition of the classic Espetit, completely redesigned for heavy-duty gear. Built around a reinforced core to withstand the hardest-hitting predators in fresh and saltwater, it comes rigged with 3x 1/0 4X trebles.

The innovative weight-transfer system does more than maximize casting distance—it creates self-generated momentum on the first twitch, making walking and sliding effortless even at 100g.

With baitcasting gear, simply reel and let the lure's fluid, aggressive action do the work—moving as smoothly as a 30g lure but packing unmatched power. Let the Goliath's unstoppable action tempt monster strikes!

# THALASTICK

Sweeps - Steady retrieve gliding

Designed specifically for tuna, this heavy stickbait combines exceptional casting distance with instinct-triggering action. It immediately assumes a horizontal sinking posture, creating a unique combination of subtle rolling and tail movement that provokes strikes even during the drop.

**Active technique:**

Sharp sweeps followed by pauses (when most strikes occur)

**Passive approach:**

Slow, linear retrieves that showcase its side-flashing glide

The single tail hook ensures solid hookups while facilitating easy release.

# HALF BEAK

## Walking the Dog - Sliding

SCAN & WATCH  
LURE ACTION

Floating and silent taildown stickbait, with a size of 160mm and a weight of 62 grams, designed for catching big pelagic fish such as tuna and all kinds of carangids (amberjack, mahi, leerfish, wahoo, queenfish etc...) as well as reef predators such as cubera snapper or napoleon wrasse...

Featuring an extraordinary grip in the water, which allows us to animate it with the Walking the Dog technique by breaking the surface layer.

If we also perform the action with energetic sweeps (long or short) alternating with stops, the Half Beak performs in sub-surface with an forward movement that shows constant changes of direction to both sides.

At the stop, it raises its head as if it were trying to jump out of the water, at which point no predator that is chasing it can reject attacking it.

## Walking the Dog - Sliding

Espetron, the legendary topwater barracuda-shaped stickbait made by Isaac Lurenzo in 2009. Perfect to cast and move with medium and heavy spin fishing gear, from shore, boat or float-tube, on shallow or pelagic waters.

Espetron triggers crazy strikes on any scenario and will be merciless attacked by a broad scope of predators: Leerfish, bluefish, seabass, amberjack, dentex, tuna, queenfish, mahi, rooster...

Even on rough wind and water conditions, Espetron will sure deliver. With a flawless reputation and countless trophies on his back.

# DON BELONE MINI

SCAN & WATCH  
LURE ACTION

**TWO SIZES: 75 & 100mm**

**Walking the Dog -Sliding  
Walking + Slashing Action**

Based on the concept of the original Don Belone, the "Mini" size is focused on seabass and other medium size predators that feed on garfish and small fry.

The 100mm size is more suitable for longer casts, casting longer than any other surface lures of this size. It will splash water like a pencilbait, and being a sinking lure this is perfect for walking the dog and subwalking in both shallow and deeper areas where fish feed close to the surface.

The 75mm size emulates a small garfish or sandeel that moves in the first layer of water trying to go unnoticed without noise or splashing, although you can let it sink and apply jerks for a slightly erratic action.

TWO SIZES: 100 & 130mm

Aggressive jerking and wobbling action

An unique jerkbait to target pike, seabass, bass, and zander with dual actions: sharp rolling wobble on steady retrieve and aggressive side-to-side movement when jerked.

The 130mm version offers adjustable sink/suspending/floating behavior through interchangeable rings and trebles.

Precision tungsten inner weight maintains a perfect 45° hunting posture during pauses, enhanced with a loud rattling for murky water detection and outfitted with ultra-sharp Ryugi® Pierce trebles featuring TC-coating for maximum hook penetration.

Perfect to fish on sunken trees, structures and deep open waters, it will undoubtedly take the big ones out of their hideout.

## WHAT'S THE **MIMETIC** COATING?

Fishus Mimetic colors are a huge improvement in lure appearance.

Thanks to a special coating, Mimetic patterns mimick the actual slime and scale shine of prey fish underwater.

Once the lure gets wet, the matt finish transforms into a real fish skin!!

### OUT OF THE WATER

### UNDER THE WATER

A true lifelike pattern will reveal itself when you get the lure underwater. The MIMETIC colors have proven to be highly effective in pressured spots, especially in really clear water, where fish become highly suspicious of conventional barnished or holographic lures.

# ESPETIT JERK SP

SCAN & WATCH  
LURE ACTION

An all-terrain jerk/twitchbait for fishing both shallow waters on currents or still waters... Trout, pike, zander, perch and seabass will merciless hammer it.

The 85 and 120 mm sizes will suspend on freshwater at around 1 meter deep when the water temperature is between 8 and 18°C.

Depending on the mainline, leader and water temperature it will work at different depths.

The 55mm behaves as a slow floating lure, diving between 0.20 and 1 meter deep.

LURE ACTION

**THREE SIZES: 45, 55 & 65 mm**

**Sinking jerkbait with sharp action**

This little jerkbait was designed specifically for trout fishing, whether you're fishing in pools, small creeks or moderate streams but also turned out to be an absolute killer on other species hunting small fry on weirs, lakes and reservoirs like perch, asp and chub.

Also perfect choice for saltwater lightgame, whether you're after seabass, seabream or porgies.

Its flattened shape, its bill design and its rattling frequency make this lure perfect for those conditions, also if we stop it keeping line tension it will nicely fall while wobbling.

SCAN & WATCH  
LURE ACTION

GRADE  
**304**  
STAINLESS STEEL

**Three sizes: 45, 55 and 65 mm**  
**Light body spinning tail blade bait**

Made with lead-free stainless steel, the lighter version of the Esparrall Metal Vib is perfect for a more slow-paced vertical fishing or power fishing steady retrieve.

Thanks to its flatter profile and spinning tail this blade-bait emits a less aggressive wave, for those days when fish are not reacting to strong vibrations or erratic movements.

The tail can be replaced by a willow-type blade, or even remove the rolling swivel for a side to side tail action.

A really effective lure for perch, zander, pike, trout and seabream.

SCAN & WATCH  
LURE ACTION

**Two sizes: 140 & 155mm**  
**Pulsating Tail Action - Darting**

The Espetit Sandeel is a soft plastic lure designed to accurately mimic the key actions of a sandeel, a primary forage fish for seabass and other saltwater predators. Its jig head shape and slender body promote a natural darting movement on a lift-fall retrieve and straight retrieve action.

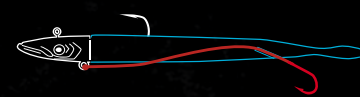

A key feature is the pulsating tail, which produces a consistent, low-frequency vibrations to attract fish from a distance and trigger reaction strikes.

Crafted with a durable yet soft plastic hollow body, with a slot to thread your line for a streamlined assist hook setup or to insert an optional glass rattle for added attraction.

The jig head is finished with a hook hanger on the belly, offering versatile rigging options. It can be easily fitted with an assist hook, a treble hook, or dressed with a feather or spinner to enhance the profile.

LURE ACTION

**FOUR SIZES:**  
**80, 100, 120 & 150mm**

An unique soft jerkbait for any predator species.

The salt density keeps the lure perfectly balanced, and along the V-tail design and lower appendix translate into a flawless fall, with a subtle tail movement and soft body wiggling.

As soon as you jerk the lure, it changes direction while making a highly attractive tail vibration.

Suitable for wide-gap offset hooks, fishing weightless, on dropshot or free rigs, but also incredibly effective rigging it on a darting jighead.

# ESPETIT DEAD JERK

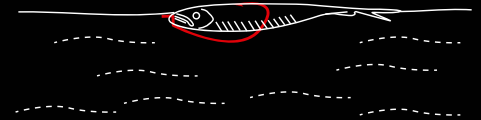

SCAN & WATCH  
LURE ACTION

Floating version of the Espetit Soft Jerk, made of TPE material, this jerkbait imitates a dying fish on the surface.

You can use it like a topwater lure: walking the dog, frogging it or with a Kickback rig to fish closer to the bottom.

Perfect for skipping on docks, surface cover and other spots where you need to keep you lure "dead" for long time. These super durable lures will catch those tricky lunkers that would reject any other lure passing by!

# ESPETIT SOFT SHAD

SCAN & WATCH  
LURE ACTION

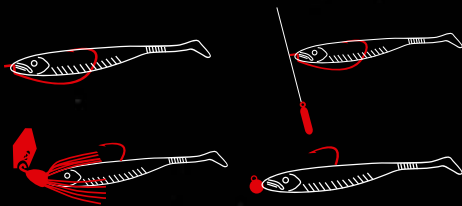

THREE SIZES: 70, 100 & 120mm

A really versatile double density soft lure to cover water easily detectable for predators thanks to its high pitch paddle tail.

Its subtle rolling and smooth vibration trail is deadly when fish reject other lures with wider tails that make tons of vibration.

It can also be hooked upside-down, to get a more intense tail movement! Perfect to be rigged on any jig head, a swimbait hook, as a spinnerbait/chatterbait trailer, Texas rig, Cheburashka... An all-terrain lure!

# ESPETIT FAT SHAD

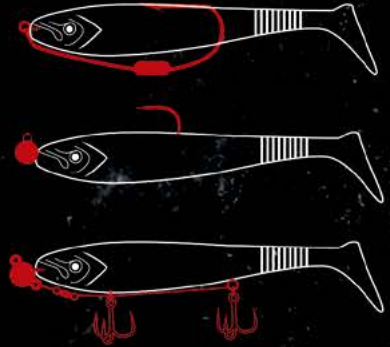

SCAN & WATCH  
LURE ACTION

The bigger brother of the Espetit Soft Shad is a bulky soft bait featuring an oversized paddle tail for a swimming action you've never seen before!

The Espetit Fat Shad shape swims with a side-to-side rolling while the tail kicks even at super-low speed, driving predators nuts! The hook slot allows rigging it weedless with big swimbait hooks, but is also perfect for regular jighead or screw-head with stingers.

The strong shrimp scent and special formula rubber make this soft bait stand out from the rest!

# CERBERUS SHAD

SCAN & WATCH  
LURE ACTION

The new big bait designed by Isaac Lorenzo. Taking the shape from the CERBERUS swimbait's hyper realistic asp-like design but with a bulkier body and powerful paddle tail.

Cerberus Shad comes with a ready-to-fish rig set: high quality stinger hooks and screw-in counterweights so you can balance it perfectly, Just rig it and cast, You'll be amazed with its lifelike swimming action and sharp side to side rolling movement.

This lure was made with only one thing in mind: helping you catch your dream monster pike or zander!!

# HARD LURES

## TUNA ATTACK

### Sliding - Stop & Go

Heavy sinking stickbait that combines long-range casting with a multi-sensory assault to trigger explosive strikes. Its weighted core allows it to cut through the wind and reach distant feeding zones, while an internal rattle emits aggressive sound to call in predators from the depths.

The lure is finished with twelve strategically placed crystals that refract light into a dazzling, omnidirectional flash, perfectly mimicking the chaotic shimmer of a panicked baitfish school and making it utterly irresistible to tuna and other large gamefish.

**SEVEN SIZES: 7, 15, 25, 35, 45, 60 & 90 gr**  
**Vertical & Casting - Assist Hooks Included**

Crafted with an extra-thick alloy for enhanced weight, the Espejig delivers a controlled fall that will sink deep into the water column, attracting fish from all layers. Its unique body shape ensures effortless fast jiggling action, making it easy to manipulate in the water to mimic the movement of a badly wounded prey.

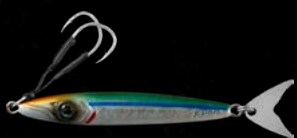

The razor-sharp assist hooks will make sure you don't miss any hookset.

And to further enhance its appeal, the Espejig features a stainless steel tail that emits extra flash and vibration.
